### **UKBCSE Welcomes Conservative Party Green Vision Reports**

The UK Business Council for Sustainable Energy welcomes today's release by the Conservative Party of two independent reports on green technology incubators for start-up businesses and on developing the world's first environmental stock market.

David Green, Chief Executive of the UK Business Council for Sustainable Energy, comments:

'We welcome the vision set out by David Cameron today on developing a more sustainable, green economy and in particular his commitment to supporting the development of a low carbon sector.

The UK has great natural potential to become a world leader in the development of low carbon technologies, however, the UK needs a clear long-term vision which supports pioneering green businesses and delivers investor confidence'
